From Pain 10/10 to 0/10 in One Session ✨

Parampreet came into the session experiencing pain that she described as *10/10*. Rather than focusing only on the physical discomfort, we explored the emotional burden she had been carrying within.

During the session, she was able to connect with and *release emotions and burdens that she had been holding onto for a long time*. As she experienced this emotional release, she noticed a remarkable change in how she felt physically.

By the end of the session, she reported that her pain had reduced from *10/10 to 0/10*.

For Parampreet, this became a powerful experience of understanding how deeply our emotional experiences can influence the way we experience ourselves.

✨ *Her biggest transformation:* She came into the session carrying intense pain and emotional burden—and left feeling lighter, relieved and free.
