From Money Being Stuck to Receiving It in Just 3 Days ✨

Shrishti came to me with money that had been *stuck for a long time*. It wasn't simply about not having enough money in her account—the money that was already due to her was not reaching her.

We worked on identifying and releasing the *emotional blocks, fears and limiting beliefs she was carrying around money*. The focus was on shifting her relationship with money from resistance and uncertainty towards greater trust, openness and abundance.

And then came her breakthrough. ✨

Within just *3 days of the session, she received the money that had been stuck for so long.*

For Shrishti, this became a powerful reminder to look beyond the external situation and become aware of the internal beliefs and emotions that may be influencing how she experiences money.

✨ *Her biggest transformation:* She went from feeling that her money was stuck with no movement in sight to experiencing the release of money she had been waiting for.
